

# Heavy Duty Band Saws

Looking to boost productivity and part quality?  
Praxair has a machine to fit your budget.

## ProStar® PRSBS360SA Column Saw

### Huge Cut Capacity

ProStar's PRSBS360SA semi-automatic horizontal column band saw will handle workpieces up to 14 in. x 22 in. This precision saw uses a 1-1/2 in. blade, cutting extremely straight along large pieces of metal stock. Semi-automatic functions include a powerful hydraulic vise and down feed. The cutting head returns after each cut is complete. Simple controls will ensure your operator is up and running quickly.

### Best in Class

Workpieces up to 14 in. x 22 in.
