

VENTILATOR COMPATIBILITY LIST

KEY:	
•	Ventilator tested as compatible in this mode
0	Ventilator not completed validation in this mode

NOTE: $NOxBOX_i$ ® is not compatible with the use of combined inspiratory & expiratory limb ventilator circuits. The $NOxBOX_i$ ® device is available only pursuant to local laws and regulations.

 $NOxBOX_i$ ® is suitable for use on the currently approved patient population, which is neonates.

 $NOxBOX_i$ [®] is not intended to be used on other patient populations.

In some cases, a ventilator/gas delivery system is not able to pass criteria for the entire test procedure based on device design or specifications. NOxBOX, Ltd are able to supply formal reports detailing test conditions used upon request.
